

1. Anthony Page  
I loved it! A truly great experience. Dr. Anthony Page
2. Carlos Gevers  
Please, DO IT AGAIN! Great speakers, great organization, great city, good hotel, excellent timing and amazing people. Spain is willing to help if needed in the future. Dr. Carlos Gevers
3. Therese BELLINE  
I knew it was fantastic, but is much much much... more!!!!
4. sjouk huysen  
great seminar, good organisation, food perfect...would have liked to be able to sit while eating . topics were inspiring and good! was in Rimini too, like this one better! regards and keep up the good work. S.Huysen DC
5. benito oliva  
I really enjoyed it and also my assistants as far as the seminar i believe it couldn't have gone better..the only lament was the location and service of the hotel...almost everyone i talked to complained about the hotel service and location including the assistants....at any rate great job everyone..dr.oliva benito  
**Editor's notation** - There is no convention facility of this nature in Rome offering 300 rooms with a base price starting at 100 Euro per night. Quite on the contrary, **downtown convention facilities in Rome are intended for those who have no reason to count their money**. As for the hotel service, **Friday's national general strike** not only turned Roman traffic into grid lock, but also left the Melià Hotel short of staff for the entire day. I'm glad to hear that you and your staff enjoyed the seminar.
6. Christian Simon  
Thank you for organizing this wonderful seminar. Given the level of quality chiropractic education everywhere, I don't understand why the ECU didn't give credits for ALL of the courses. All our team loved it. We will be there next time! Keep up the good work, Sincerely, Christian Simon, DC
7. David Aranda  
Wonderful seminar, amazing speakers, amazing people and great location. What more is needed...another one soon, please!
8. Kym Williams  
Excellent speakers! Location ? Break out area not that organised. However 8/10 Thank You
9. Petit  
A big thank you, I needed this big moment together with chiropractors coming from the whole world to re-motivate me and keep the faith in our big profession that is the chiropractic!!! Great seminar, I wait the next one with pleasure. Chiropracticly, Nicolas Petit, DC.
10. Alain chiappinelli  
Very bad location anything inside rome will have been better. Poor quality service hotel. Lunch standing without any sitting except the floor i think any chiropractor deserved better ! We teach our patient the contrary for lunch! Too bad because the teaching was good!
11. Dania Mazzini  
Brilliant, a regular MUST of Chiropractic, to be better, to evolve, to serve and to love, Thank You!!
12. Alexandra LEDUC  
I was present in the Parker Seminar in Rome, where something special happened for me. Since a long time, my inner voice is dreaming to serve the community and to change the world but without a specific vision of how I can do. I wanna make a big difference for the world, I wanna change people and offer my energy and spirituality to people. Thanks to my destiny

and my decisions, I discovered the Chiropractic, and enrolled in IFEC without knowing that Chiropractic will be the exact profession to deeply realize my dream and accomplish my inner mission..... (Editor's notation - In reference to the Chiro Action Team Project, Alexandre continues) I'm a young Chiropractic without money. But I've got hands full of energy and a hearth full of unconditional love to serve people through Chiropractic care. I wanna be one of you. I wanna give adjustments to the humanity with you. Not for prestige. Not for an attestation to put in my office. But to realize one of my dreams and move the world through the Chiropractic. Chiropractically, LEDUC Alexandre, DC

13. Nicholas Franklin

July 1st, 2010 | [9:09 pm](#)

Excellent seminar, and really exciting speakers too! I took the "science" part of the seminar, and was really thrilled!!! Thank you so much Drs Murphy, Hall and Fujikawa! Nicholas. Franklin, DC

14. Trine Nilsen

The speakers were great, both the philosophy as the science speakers. During the lunches and poolparty it was difficult to eat, standing with a plate in one hand, a glass in another and then trying to eat with a spoon (knives and forks were not available anymore.) Despite my written notice to the hotel and Parker, that I have gluten allergy, at lunch the one day I could choose between rice and cucumers, the second lunch my choice consisted of cucumbers and carrots.

15. Cecilia von Hofsten

Thank you PSI 2010 team for a great seminar! I had no idea it would be so difficult to choose which class to take - it would have liked to take them all. Really liked the mix of scientific and philosophic speakers. Hope we will be able to sit down to eat next time - and I would prefer fruit to pastry. We are promoting health after all! All in all a great experience though!

16. Gian Daniele Amorini

I was at PSI Rimini also, so I already knew that all the speakers would be well prepared and full of energy and motivation. In Rome it has been a great experience for me, both for motivation and learning. I enjoyed the lectures I have taken. One thing I regret is that Parker rules did not allow to have a copy of the presentations/lectures material. At Rimini PSI we received a CD with them. It should have been done at Rome PSI also. It helps to remember and retain what was listened to. As far as location, fine for us. A bit on the outskirts of Rome, but with a short bus and Metro ride we were in Rome centro. Plus there was a taxi station not too far away. Gian Daniele Amorini, D.C.

17. Rosemary Keating

I wanted to thank you for organising such an outstanding conference. Everyone I have spoken to thoroughly enjoyed the whole experience, and left inspired, challenged and entertained. Well done! We are holding Parker here in Australia in June 2011 - we would love to welcome our Northern Hemisphere colleagues "downunder!" for another awesome program. Dr Rosemary Keating, Governor, Australian Spinal Research Foundation

18. Sonia Poles

I have worked as a CA in a chiropractic office since 1988, only in June did I have my first experience with Parker Seminars. I was impressed with the organization and overall content of the CA course, but remained particularly fascinated by Dr. Gilles Lamarche's explanation of the anatomy of the vertebral column and nervous system. It was done in a simple, comprehensible manner without the use of medical terminology and made even more interesting by the examples that he gave of his experience as a chiropractor. I could have remained hours listening to him. Sonia Poles

19. Dr Rose Lepien

Parker Rome was an incredible experience! The coming together of the Italian Chiropractic leadership and the Parker team offered love, wisdom and dynamic information for personal

and practice growth. As a result, our light shines brighter, and our patients will benefit in big ways. With love and appreciation, Dr. Rose Lepien

20. Francesca lovane

Hi, I'm a CA and even though I have worked in chiropractic office for four years, Parker Rome was my first seminar. The lessons gave me enthusiasm and a better understanding of chiropractic and my role as an assistant; now confident that I can better serve the patient's needs and respond to their questions and problems. It was great to meet other CAs and understand with them the personal and professional gratifications that our work rewards us. Thanks to those who sent me and I certainly recommend the experience to others. In hope to repeat it in the future, Francesca lovane
